KLCC SKILLS ACADEMY
PERFECTION OF SKILLS

Professional Certificate in Aviation Security & Safety
CPD Programme (Short Course)
What is CPD?

Continuing professional development (CPD) is the intentional maintenance and development of the knowledge and skills needed to perform in a professional context. This could mean honing current skills, it could mean developing them to a new level, or it could mean learning new ones that will allow an employee's job role to expand or prepare them for potential promotion.

CPD activities can range from formal educational activities such as instructor-led training courses, workshops or seminars, to more informal approaches such as work-based learning or mentoring. CPD can also include self-directed study such as e-learning courses and structured reading.

CPD can be provided by specialist companies (e.g.commercial training providers, independent coaches), or provided internally, in particular by larger organisations.
